Announcement of Product Conformity

This announcement of product conformity is applied to our product- **Valve Regulated Lead Acid (VRLA) Batteries**. Our products are not applicable to RoHS Directive (**2011/65/EU**) and WEEE (**2012/19/EU**) as it is regulated by Battery Directive (**2006/66/EC**) and amendment (**2013/56/EU**).

According to the directive of **2000/53/EC** on end-of-life vehicles, it's permitted that **batteries**, tire balancer and alloy can contain lead. And before recycling vehicles, batteries have to be removed first and then fall under the regulation of battery directive. Therefore, sealed lead-acid batteries meet with the requirement of this directive.

In general, **Valve Regulated Lead Acid (VRLA) Batteries** must apply to battery directive of **2006/66/EC** and amendment **2013/56/EU** which is to regulate certain hazardous substance. According to the test result, the restricted substance such as cadmium and mercury were not detected in our batteries. We hope this information helps.
